

Thank you for taking the time to read my comments. I am concerned that the broadening of the LPFM service and giving it priority over current FM service will hurt the community. I, like many of my friends and neighbors, listen to Christian KLOVE 104.3FM here in Cincinnati. We are fortunate to also have a local Christian radio station WAKW 93.3FM. While I don't know if this expansion of the LPFM service will interfere with our local KLOVE's broadcasts, I am concerned of what it would mean to the community if it did.

Greater Cincinnati with a population of 1.9 million people only has these two contemporary Christian radio stations. As with any service (even non-profits) competition creates better quality. Having a national station and a local one, both striving for public financial support, makes each strive to serve the community. Eliminating one will unfortunately create a decline in quality the remaining station and reduce the quality of life in our community.

I hasten to think what will happen to those communities that cannot and are not supporting two Christian stations and only have KLOVE to encourage them daily. Please don't take priority over their or our radio stations. Even if they aren't locally generated they do have a lasting local effect.

Regards,
Dean Lutton
